### Description

This 95-gallon salvage overpack drum is ENPAC's most popular drum that takes industry standards to a new level by stacking, locking, and transporting more securely and efficiently.

- Ships in 4 packs with 4 lids, saving both space and transportation costs
- Nesting lids create a safer and stronger nested stack for storage
- With a double start thread, the 1095-YE only requires half a turn to tightly secure your leaking drums
- A long object, such as a 2x4 in. piece of wood, can be put in the slots to assist with closure
- Ideal for standard 55-gallon drums and [spill kits](#)
- UN & DOT rated
- UV resistant resin
- Optional [tarp](#)
- US Patent No. 9,592,927; Canada Patent No. 2,699,046
